What's Good for Birds is Good for Your Backyard with Bob Mulvihill, Ornithologist at the Pittsburgh Aviary:

Attracting birds to your backyard is good for birds and good for you, too! Creating a bird-friendly habitat reduces the time spent mowing the lawn, reduces or eliminates the use of garden pesticides and herbicides, and provides a beautiful living landscape that is healthier for you, your children, your pets and wild birds.

Bob will also talk about the birds we see every day and their nesting and feeding habits. Fun and educational! Have a question about our fine-feathered friends? Come ask Bob!

One lucky person will take home a basket of "Feeders, Seed and Suet", courtesy of Wild Birds Unlimited. Join us!

Mt. Lebanon Public Library
Thursday, April 25
7:00 pm.
